BBA

Molecular Basis of Disease

Vol. 1182, 1993

# Cumulative Contents

## *Review*

The functions of thrombospondin and its involvement in physiology and pathophysiology
*J. Lahav (Israel)* 1

## *Regular Papers*

Redox metabolism of vitamin C in blood of normal and malaria-infected mice
*E.N. Iheanacho, R. Stocker and N.H. Hunt (Australia)* 15

Relationships among alterations in renal membrane sodium transport, renin and aminopeptidase M activities in genetic hypertension
*S. Salardi, R. Falchetto, C. Troffa, P. Parenti, B.R. Barber, S. Pastore, N. Glorioso and G. Bianchi (Italy, Switzerland)* 22

Tangier disease: isolation and characterization of LpA-I, LpA-II, LpA-I : A-II and LpA-IV particles from plasma
*P. Duchateau, D. Rader, N. Duverger, N. Theret, C. De Geitere, H.B. Brewer Jr., J.C. Fruchart and G.R. Castro (France, USA)* 30

Pan-sulfation of bile salts markedly increases hydrophilicity and essentially abolishes self- and hetero-association with lecithin
*J.M. Donovan, I.M. Yousef and M.C. Carey (USA, Canada)* 37

Albumin Hawkes Bay; a low level variant caused by loss of a sulphydryl group at position 177
*S.O. Brennan and A.P. Fellowes (New Zealand)* 46

Cross-reactivity between murine melanoma antigen B700 and a human melanoma-associated antigen (M-66) recognized by autologous antibody: evidence suggesting shared epitopes
*A. Toporowicz, D.M. Gersten, V.J. Hearing, W.E. Brown and D.R. Vlock (USA)* 51

Production of macrophage colony-stimulating factor (M-CSF) by human articular cartilage and chondrocytes. Modulation by interleukin-1 and tumor necrosis factor $\alpha$
*I.K. Campbell, G. Ianches and J.A. Hamilton (Australia)* 57

Inhibition of protein kinase C activity in mucolipidosis type-4: a model for a new pathogenetic mechanism in inborn errors of metabolism
*A. Boneh and G. Bach (Israel)* 64

Substratum acidification and proteinase activation by murine B16F10 melanoma cultures
*P.R. Young and S.M. Spevacek (USA)* 69

Identification of two new LDL-receptor mutations causing homozygous familial hypercholesterolemia in a South African of Indian origin
*D.C. Rubinsztein, I. Jialal, E. Leitersdorf, G.A. Coetzee and D.R. Van der Westhuyzen (South Africa, USA, Israel)* 75

Pseudomonal elastase injection causes low vascular resistant shock in guinea pigs
*M.M. Hossain Khan, T. Yamamoto, H. Araki, Y. Ijiri, Y. Shibuya, M. Okamoto and T. Kambara (Japan)* 83

Effects of monoclonal antibodies on $\alpha$-staphylotoxin action against erythrocytes and model phospholipid membranes
*O.V. Krasilnikov, V.I. Ternovsky, P.G. Merzliak, L.T. Zachidova and K.-D. Hungerer (Uzbekistan, Germany)* 94

The $O_2^-$ generating oxidase of B lymphocytes: Epstein-Barr virus-immortalized B lymphocytes as a tool for the identification of defective components of the oxidase in chronic granulomatous disease
*F. Morel, L. Cohen Tanugi Cholley, G. Brandolin, A.C. Dianoux, C. Martel, P. Champelovier, J.M. Seigneurin, P. Francois, M. Bost and P.V. Vignais (France)* 101

## *Rapid Reports*

Amyloid formation by salmon calcitonin
*P.J. Gilchrist and J.P. Bradshaw (UK)* 111

Oxygen-dependent reduction of a nitroxide free radical by electron paramagnetic resonance monitoring of circulating rat blood
*V. Quaresima, C.L. Ursini, G. Gualtieri, A. Sotgiu and M. Ferrari (Italy)* 115

## *Minireview*

Recent developments in certain X-linked genetic eye disorders
*B.S. Shastry (USA)* 119

## *Regular Papers*

Elevated serum $\alpha$-fetoprotein level of nude mice bearing hepatoma cells by treatment with monoclonal antibodies to $\alpha$-fetoprotein
*K. Masuda, S. Nagata, K. Hirano, Y. Takagishi and H. Hirai (Japan)* 128

Polyamines in testosterone-induced hypertrophic and antifolate-induced hyperplastic mouse kidney. Differential effect of $\alpha$-difluoromethylornithine
*M. Manteuffel-Cymborowska, W. Chmurzyńska and B. Grzelakowska-Sztabert (Poland)* 133

Molecular basis of an adult form of Sandhoff disease: Substitution of glutamine for arginine at position 505 of the $\beta$-chain of $\beta$-hexosaminidase results in a labile enzyme
*P.A. Bolhuis, N.J. Ponne, H. Bikker, F. Baas and J.M.B. Vianney de Jong (The Netherlands)* 142

Ceramide composition of the psoriatic scale
*S. Motta, M. Monti, S. Sesana, R. Caputo, S. Carelli and R. Ghidoni (Italy)* 147

Renal corticosterone 6$\beta$-hydroxylase in the spontaneously hypertensive rat
*S. Ghosh, W. McLean Grogan, A. Basu and C. Watlington (USA)* 152

Structural and functional studies in vitro on the p6 protein from the HIV-1 *gag* open reading frame
*D. Stys, I. Blaha and P. Strop (Czechoslovakia)* 157

A carbon-13 nuclear magnetic resonance investigation of the metabolic fluxes associated with glucose metabolism in human erythrocytes
*M.C. Schrader, C.J. Eskey, V. Simplaceanu and C. Ho (USA)* 162

Measurement of fluxes through the pentose phosphate pathway in erythrocytes from individuals with sickle cell anemia by carbon-13 nuclear magnetic resonance spectroscopy
*M.C. Schrader, V. Simplaceanu and C. Ho (USA)* 179

Fibronectin fragments bind to and penetrate cartilage tissue resulting in proteinase expression and cartilage damage
*D.-l. Xie and G.A. Homandberg (USA)* 189

Biological distribution of $^{99m}$Tc-labeled YIGSR and IKVAV laminin peptides in rodents: $^{99m}$Tc-IKVAV peptide localizes to the lung
*P.O. Zamora, D. Eshima, D. Graham, L. Shattuck and B.A. Rhodes (USA)* 197

Plasminogen activators and plasminogen activator inhibitors in connective tissues and connective tissue cells: influence of the neuropeptide substance P on expression
*P.G. Murphy and D.A. Hart (Canada)* 205

Calpain activity alters in rat myocardial subfractions after ischemia or reperfusion
*K.-i. Yoshida, Y. Yamasaki and S.-i. Kawashima (Japan)* 215

Pancreatic islet cells are highly susceptible towards the cytotoxic effects of chemically generated nitric oxide
*K.-D. Kröncke, H.-H. Brenner, M.-L. Rodriguez, K. Etzkorn, E.A. Noack, H. Kolb and V. Kolb-Bachofen (FRG)* 221

*Editorial* *v*

## *Minireview*

Lacticacidemia
*B.H. Robinson (Canada)* 231

## *Regular Papers*

Pedigree analysis of $\alpha$-L-fucosidase gene mutations in a fucosidosis family
*M. Yang, H. Allen and R.A. DiCioccio (USA)* 245

Delayed oxidation of intramitochondrial pyridine nucleotide oxidoreduction state as compared with tissue oxygenation in human liver transplantation
*A. Tanaka, T. Kitai, S. Iwata, K. Hirao, A. Tokuka, B. Sato, N. Yanabu, S. Mori, T. Inomoto, Y. Yamaoka, K. Tanaka, K. Ozawa and B. Chance (Japan, USA)* 250

Identification of hybrid-type carbohydrate chains on the light chain of human monoclonal antibody specific to lung adenocarcinoma
*H. Tachibana, K. Seki and H. Murakami (Japan)* 257

Co-overexpression of bacterial GroESL chaperonins partly overcomes non-productive folding and tetramer assembly of *E. coli*-expressed human medium-chain acyl-CoA dehydrogenase (MCAD) carrying the prevalent disease-causing K304E mutation
*P. Bross, B.S. Andresen, V. Winter, F. Kräutle, T.G. Jensen, A. Nandy, S. Kølvraa, S. Ghisla, L. Bolund and N. Gregersen (Denmark, Germany)* 264

Pore formation by a two-component leukocidin from *Staphylococcus aureus* within the membrane of human polymorphonuclear leukocytes
*V. Finck-Barbançon, G. Duportail, O. Meunier and D.A. Colin (France)* 275

Use of the hemagglutinating virus of Japan (HVJ)-liposome method for analysis of infil-

trating lymphocytes induced by hepatitis B virus gene expression in liver tissue
*K. Kato, Y. Dohi, Y. Yoneda, K.-i. Yamamura, Y. Okada and M. Nakanishi (Japan)* 283

Alterations of peroxisomal function in ischemia-reperfusion injury of rat kidney
*S. Gulati, L. Ainol, J. Orak, A.K. Singh and I. Singh (USA)* 291

Differences in 27-hydroxycholesterol concentrations in plasma and liver of baboons with high and low responses to dietary cholesterol and fat
*S.Q. Hasan and R.S. Kushwaha (USA)* 299

Recombinant murine serum amyloid A from baculovirus-infected insect cells: purification and characterization
*B. Kluve-Beckerman, M. Song, M.D. Benson and J.J. Liepnieks (USA)* 303

Analysis of glyoxalase-I from normal and tumor tissue from human colon
*S. Ranganathan and K.D. Tew (USA)* 311

The behavior of free purine nucleotides in lymphocytes infected with HIV-1 virus
*A. Tabucchi, F. Carlucci, M.C. Re, G. Furlini, E. Consolmagno, R. Leoncini, M. Pizzichini, E. Marinello, M. Rubino and R. Pagani (Italy)* 317

Tissue distribution of succinylacetone in the rat in vivo: a possible basis for neurotoxicity in hereditary infantile tyrosinemia
*P.A. Wyss, S. Boynton, J. Chu and K.S. Roth (USA, Switzerland)* 323

## *Rapid Reports*

Low extracellular magnesium induces intracellular free Mg deficits, ischemia, depletion of high-energy phosphates and cardiac failure in intact working rat hearts: A $^{31}$P-NMR study
*B.M. Altura, R.L. Barbour, T.L. Dowd, F. Wu, B.T. Altura and R.K. Gupta (USA)* 329

Infrared spectroscopic characterisation of multiple sclerosis plaques in the human central nervous system
*L.-P. Choo, M. Jackson, W.C. Halliday and H.H. Mantsch (Canada)* 333

*Cumulative Contents* 339

*Author Index* 342
